Examples of practical applications

With low IT outlay and a few CRM permissions, you can enjoy all of the benefits offered by ARGUS Customer Insights powered by SQUIRRO. Whether via the standalone online version or already integrated into your CRM (Salesforce or Microsoft Dynamics 365), you have access whenever you want and from any device.

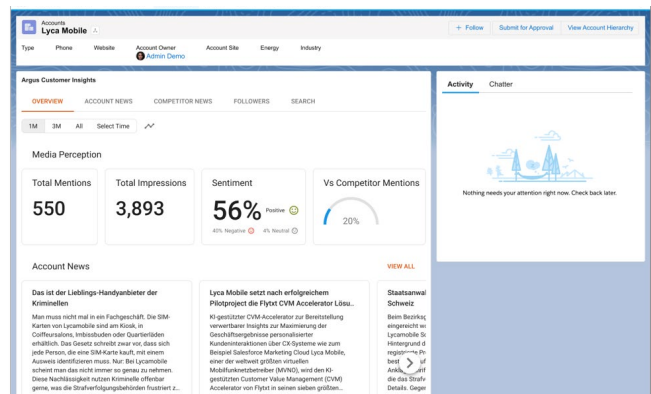

Accounts

Monitor the things that are important to you. Use the suggested companies to find out more about your accounts and their competitive environment, or add your own companies.

Sales leads

Take a proactive approach to lead generation. Respond quickly to market events and generate qualified business opportunities. Take advantage of the ability to identify trends and anomalies so that you can detect problems early, exploit cross-selling and upselling opportunities, and increase turnover, whilst also reducing client migration.

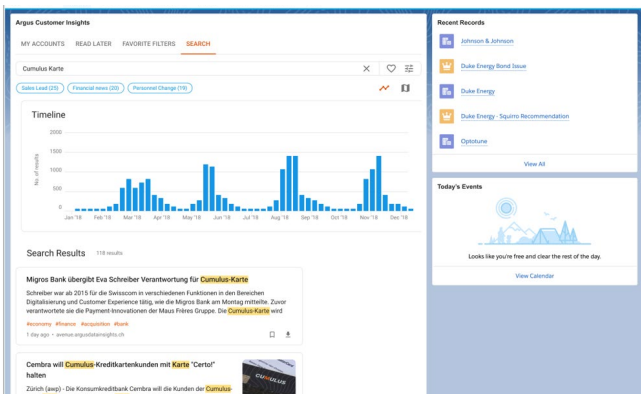

Financial news

Stay up to date with your (potential) clients' financial and business developments thanks to analysis of financial news. The platform also helps you to identify financial risks at an early stage and take any appropriate measures.

Personnel changes

This platform helps you stay up to date with any personnel changes in your (potential) clients' management and administrative boards. You will remain up to speed, allowing you to respond in good time, boost your client relationships and promote your company.
